

Health and Social Care Information Centre (HSCIC)

Information about you and the care you receive is shared, in a secure system, to help plan and improve services for all patients. They will link information from all the different places where you receive care, such as your GP, hospital and community service, to help provide a full picture. This will allow them to compare the care you received in one area against the care you received in another, so they can see what has worked best. Information such as your postcode and NHS number, but not your name, will be used to link your records in a secure system, so your identity is protected. Information which does not reveal your identity can then be used by others, such as researchers and those planning health services, to make sure we provide the best care possible for everyone

OPTING OUT

Patient Name:
Patient DOB:
Address:
.....
.....
Postcode:
Phone no:
NHS number (if known):
Signature:
Date:
